The strenght of mighty oak

From the dawn of time, European oak is the raw material of the first choice among carpenters, for the production of durable, high-quality and long-lasting furniture. Sustaining this age-old tradition, we also produce oak furniture as a synonym of reliability, which will be passed on from generation to generation, preserving its original beauty and naturalness. Our products are directed to aware customers who appreciate manual production, paying attention to details and environmental protection. Every piece of our furniture wears the ecological FSC certificate, which is a confirmation of the proper management of the forest from which our oak raw material comes from.

Monolith is our specialty

Single slab monolith oak is the most luxurious and unique way to present our tables. It requires a rare and old oak tree to be cut, in order to produce this spectacular piece of nature's art. Each table is one of its kind, there are no two identical pieces. Extremely difficult and time-consuming drying procedures are required to obtain perfectly prepared material, highly skilled craftsman needs to touch every square centimeter of the countertop with his own hands to master the surface and edges. Knots, holes and other imperfections can be smoothed and finished with resin or left natural and raw. We can customize the table size and produce any leg you can imagine...

Tables created with passion

Fairfax

collection

The Fairfax collection is a classic example of combining two extremely different materials, warm wood and cold glass, creating a very innovative concept that fits to sophisticated, classic as well as minimalist and cool interiors. Like fire and water, two opposing elements, wood and glass create an exciting combination that evokes controversy and delight. A timeless and unique composition fashionable today and for a hundred years...

The spirit of the forest in your home

Ancient Greek philosophers have created the adage that "symmetry is the aesthetics of fools", according to this idea, we designed the basis of the D.C. collection. It is a tribute to asymmetry, a steel "spider" supporting an oak tabletop is surprisingly light, as if he would like to deny the laws of gravity, but at the same time stably supports a massive block. The whole composition is perfectly complemented by the profiled Swiss edge of the tabletop, which coincides with the angles and curvatures of the base.

OAK TABLE TOP

Monolith

The fashion for wood does not pass away

Arlington

collection

We have created the Arlington collection for wood lovers. It is an expression of praise and respect for nature, both the top and the leg are made entirely of European oak. The composition of the table is compact, massive and perfectly warms every interior in which it is placed. It is the central point, the decoration of both the residence and the loft. A timeless table for many generations.

100% Handmade

Reston

collection

The industrial character of the Reston collection was emphasized by a simple form of a leg made of raw steel. It is a timeless piece of furniture designed for loft and modern interiors. The traditional solidity of an oak tabletop in several modern variants gives a wide field for the imagination of the homeowner or interior designer.

One of a kind, unique, your...

Potomac

collection

Uncompromising and masculine, these two words best reflect the nature of the Potomac collection. Heavy steel panels solidly support the oak monolith, but when you look at the side, their weight disappears in the blink of an eye, only the "thin trickles" remain, which give the whole composition lightness and sophistication. The unique character contained in the Reston collection makes this table a decoration of an extremely unique living room...

Virginia

collection

The Virginia collection is a sophisticated style with no flashy annotations, sometimes less is more as it is in this case. A simple base in classic black color is a subtle decoration of oak tabletops, which it supports. Longevity and resistance to everyday use which oak wood provides, makes this table will serve its owner for many years.
